

# The entire world of brushes

*Kullen*

The World of Brush Technology

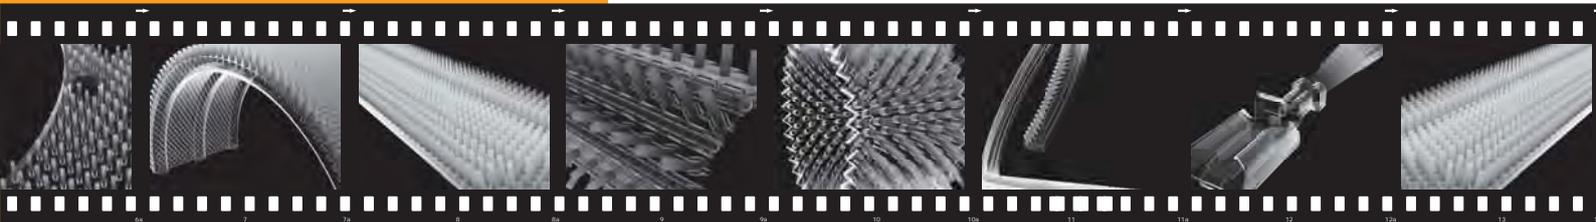

Unbeatable Quality

# The entire world of brushes

*Kullen*

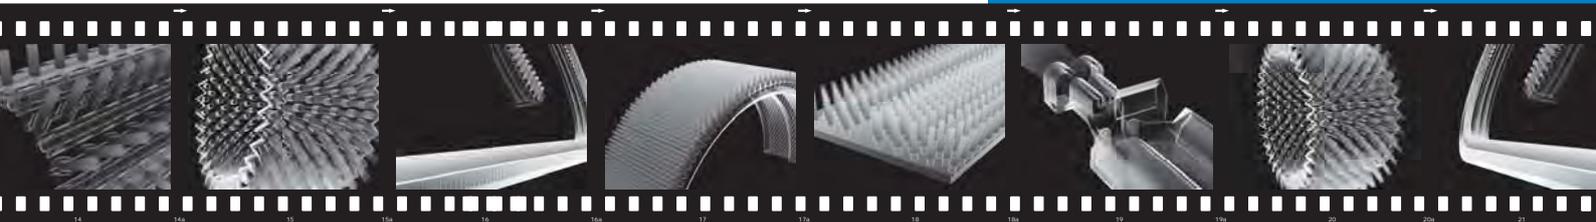

KULLEN is the name synonymous with industrial brushes. For almost 100 years we have been manufacturing technical brushes. Over the years we have produced more than 141,000 different types, with new brushes created every day. Working with the KOTI Group gives customers access to an unbeatable range of brush products and service. No matter what your requirements are, the KOTI Group can provide the solution either "off the shelf" or "made to order".

# now doubled in size!

The KOTI Group always has the correct brush to suit your application. Since 1966 KOTI has expanded its expertise and knowledge to become a world leader in the design and manufacture of technical brushes and their applications. KOTI continues to expand our market offer and the integration of the KULLEN range into the group allows us to fulfil the needs of our customer even better. This is a promise you can count on.

# Brushes and their applications:

As a group we offer you a total range of technical brushes for all applications.

## **Industrial and technical brushes**

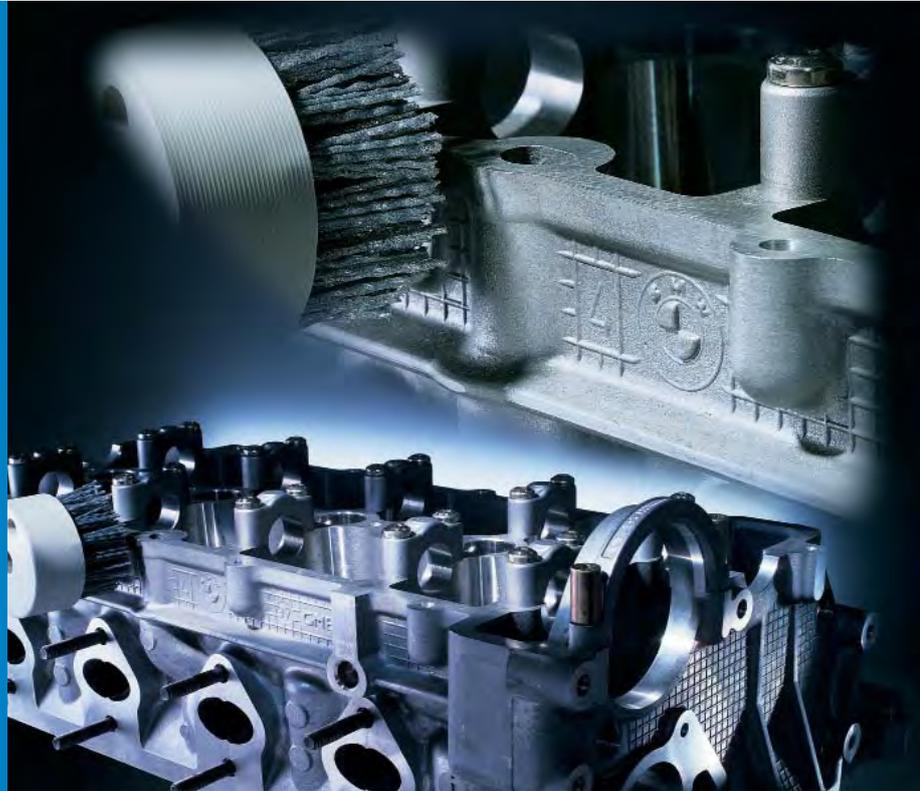

High quality stocked and made to order brushes.

## **Cleaning brushes**

Whatever you have to clean: Baking trays, conveyor belts, engine blocks, parking lots, roads, vegetables, etc. – we have the solution.

## **Runway brushes**

At modern airports there can be no disruption to flight schedules. In winter or during bad weather our brushes can keep airports working avoiding inefficiency and lost revenue.

## **Deburring brushes**

Removal of burrs is essential in all manufacturing processes. Whatever material regardless of shape or size, we can supply the correct brush for your application

## **Hygiene Brushes**

Our range of professional hygiene brushes prevents and cleans dirt and other deposits from important areas.

# Nine powerful enterprises working to achieve your satisfaction!

With the integration of the KOTI Group with the KULLEN Group we have created a world class brush-manufacturing organisation. Our teams of specialists are only a call away from assisting you in solving your problem, in the most efficient way. Our companies are situated all over Europe and are able to offer a fast personal service. Our comprehensive range of products and brands can offer the ideal solution.

We are a globally recognised brush specialist able to call on the widest range of materials available to solve your problem. Our extensive range consists of end, cup, circular and single section brushes, with or without shaft. Also disc, roller brushes in any size, strip and sealing brushes.

Deburring brushes and tools from HK-Koti can help to safely deburr to stop damage to components and injury to workers. For continuous deburring duties, we provide our customers with special designed deburring machines.

We manufacture rotary wire brushes. Mostly used for industrial machining, driven by electric hand tools such as drilling machines or angle grinders, but also bench grinders, robots or machining centers are common drives.

Strip and sealing brushes of all types stocked and made to order. Also strip for special applications for industrial processes. Escalator Safety strips are known worldwide for preventing serious accidents on escalators.

KOTI Industrial and Technical Brushes is a family-owned company founded in 1966 and has grown to include 10 established companies across Europe. Being a family-owned company allows us to be more committed to customer service and gives us access to a wealth of knowledge in brush technology. The KOTI Group objective is to add value to their customer processes. The enormous quality and quantity of specialized knowledge allows the KOTI Group to provide the best possible support to its customers.

## **Vision, Mission and Strategy**

### **UNBEATABLE QUALITY:**

High quality in the brush products provided world wide!

### **FINDING YOUR SOLUTION:**

The best and optimal solution for every (special) application!

### **INNOVATION:**

Innovative brush technology & creative brush development!

### **BEING YOUR PARTNER:**

Meeting the needs of customers and working with you!

### **TRADITION AND PROGRESS:**

Combining traditional skills and modern computerized machines!

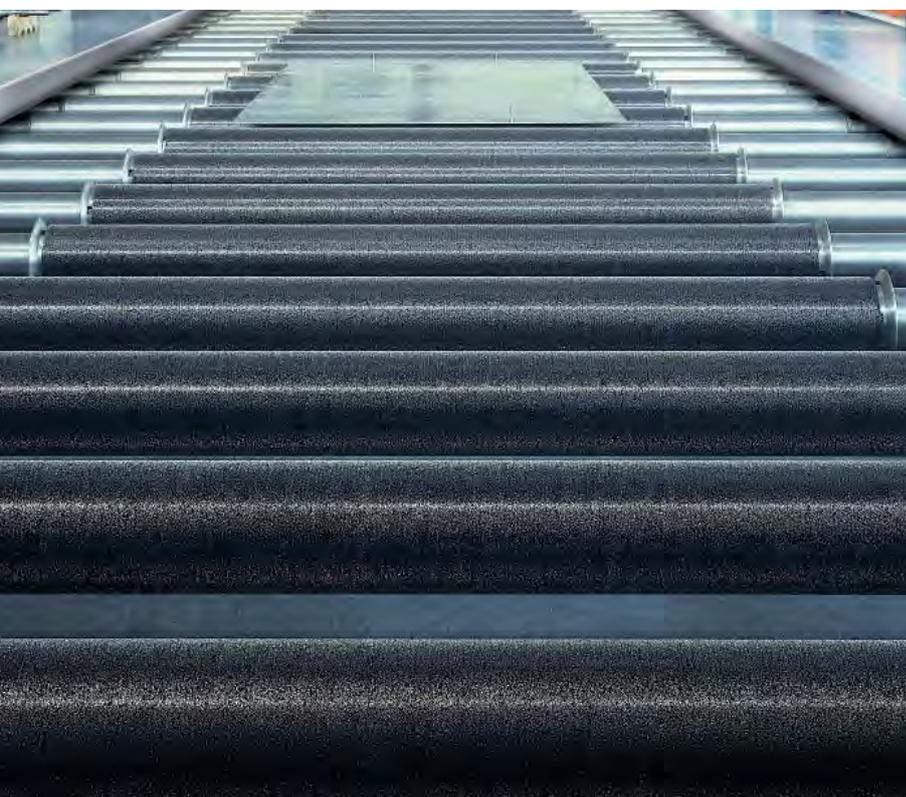

### **RESEARCH AND DEVELOPMENT:**

The KOTI Group is continuously developing new products. Every solution to a brushing problem starts with an ideal, either a customer idea or one of our own. New ideas are the energy that drives a company forward. From the idea research, new plant machinery and investment are obtained to turn the idea into reality. The KOTI Group endeavours where possible to develop products, processes and machinery in house, saving customers substantial development costs.

# Brushes and branches:

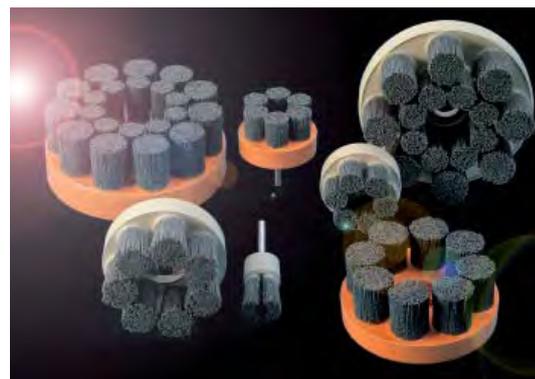

We know all the branches with their specific needs. So we are able to support you in the most professional way. In industries like:

Agriculture  
Airports and runways  
Automotive industry  
Beverage industry
